Summary

Hello! I'm a software engineer based in Seoul, Korea.

I am interested in frontend development using React and React Native, and backend development using Rust and Kotlin.

Aside from the technical skills, I am very interested in the means of protecting privacy through cryptography and enjoy reinventing the wheel.

Skills

- Frontend development: React, React Native
- Backend development: Rust, Kotlin
- Privacy, cryptography, and open source software

Experience

Co-Founder at Repixel Co, Ltd. https://repixel.co.kr	2025. 07 - present
Co-Founder and Chief Technology Officer at Investy Co, Ltd. https://boundary.team	2021. 02 - 2025.07
Development Team Leader at DKBrothers.	2020. 01 - 2021. 02
